
DORLET
Integrated Security

About us

Over 30 years specialising in **Comprehensive Security Systems** adapted to the specific needs of our customers.

We develop, manufacture and integrate the most advanced security systems at our headquarters in the Álava Technology Park.

Solutions to guarantee protection **and control in highly demanding environments thanks to protected and encrypted** communications.

We offer commissioning and **maintenance** services, such as **DORLET CARE SW Plus**, to ensure the monitoring, control and fine-tuning of our software.

We have been awarded **Intrusion Grade 3** and **Access Control Grade 4** certifications, as well as the **high grade certification of the National Security Framework.**

SPAIN · FRANCE · DUBAI · MEXICO · COLOMBIA

NATIONAL SECURITY FRAMEWORK (ENS)

CYBERSECURITY CERTIFICATE

CERTIFICATE IN GRADE 3 (INTRUSION) AND GRADE 4 (ACCESS CONTROL)

DMA - DORLET Mobile Access

Say goodbye to physical cards, with DMA your smartphone can be turned into the most secure key.

Operation with EVOpass® range
Operation with CX handles and cylinders
One-time payment
Reusable credential
Card / button mode
Android / iOS

OnTouch

- Mode of use of the DMA credential in which validation occurs by proximity, when the user approaches the mobile phone to the reader.
- Short reading distance, analogous operation to that of an RFID card.

Button

Mode of use of the DMA credential in which validation occurs when the user explicitly selects the door or reader to be accessed on the DORLET Mobile Access app.

Smart detection of nearby readers that the user has enabled. BLE remote opening at all times.

Comprehensive Security Systems Protecting

UTILITIES

- Multisite
- BAC integration
- Remote installation management (SOC)
- Communications encryption

UNIVERSITIES

- Virtual credential compatible with TUI (University Smart Card)
- Integration of University Software
- Student attendance
- Residence management

MUSEUMS

- Visitor control
- QR codes
- e-Commerce Integration
- Asset control

WATER SUPPLY

- BAC integration
- Technical alarms
- Access to restricted areas
- Grade 3 and 4 Certification (Access and Intrusion)

INDUSTRY

- ERP integration (SAP)
- DASStime
- Parking by companies
- Virtual credentials

AIRPORTS

- Boarding gates
- Check-in counters
- Restricted areas
- Anti-return corridors

HOSPITALS

- Room management
- Cleanrooms
- Lockers
- Lift integration

DISTRIBUTION

- BAC integration
- Licence plate reading
- Fleet control
- Parking by companies

highly demanding environments for over 30 years.

GOVERNMENT AGENCIES

- Visits management
- Access to restricted areas
- DASStime

BANKS

- Cybersecure solutions
- Lock control
- Coercion systems (intimidation)
- Biometric and two-factor access

ICT

- Multisite
- BAC integration
- Remote installation management (SOC)
- Communications encryption

DEFENCE AND SECURITY

- High availability
- Gun cabinet solution
- Blacklists
- Fleet control

SPORTS FACILITIES

- Lighting control
- Space booking
- Capacity control
- Ticketing integration

PORTS

- Ferry Mode
- Dangerous goods control
- Ticket issuing
- Integration with Posidonia

VERTICAL BUILDINGS

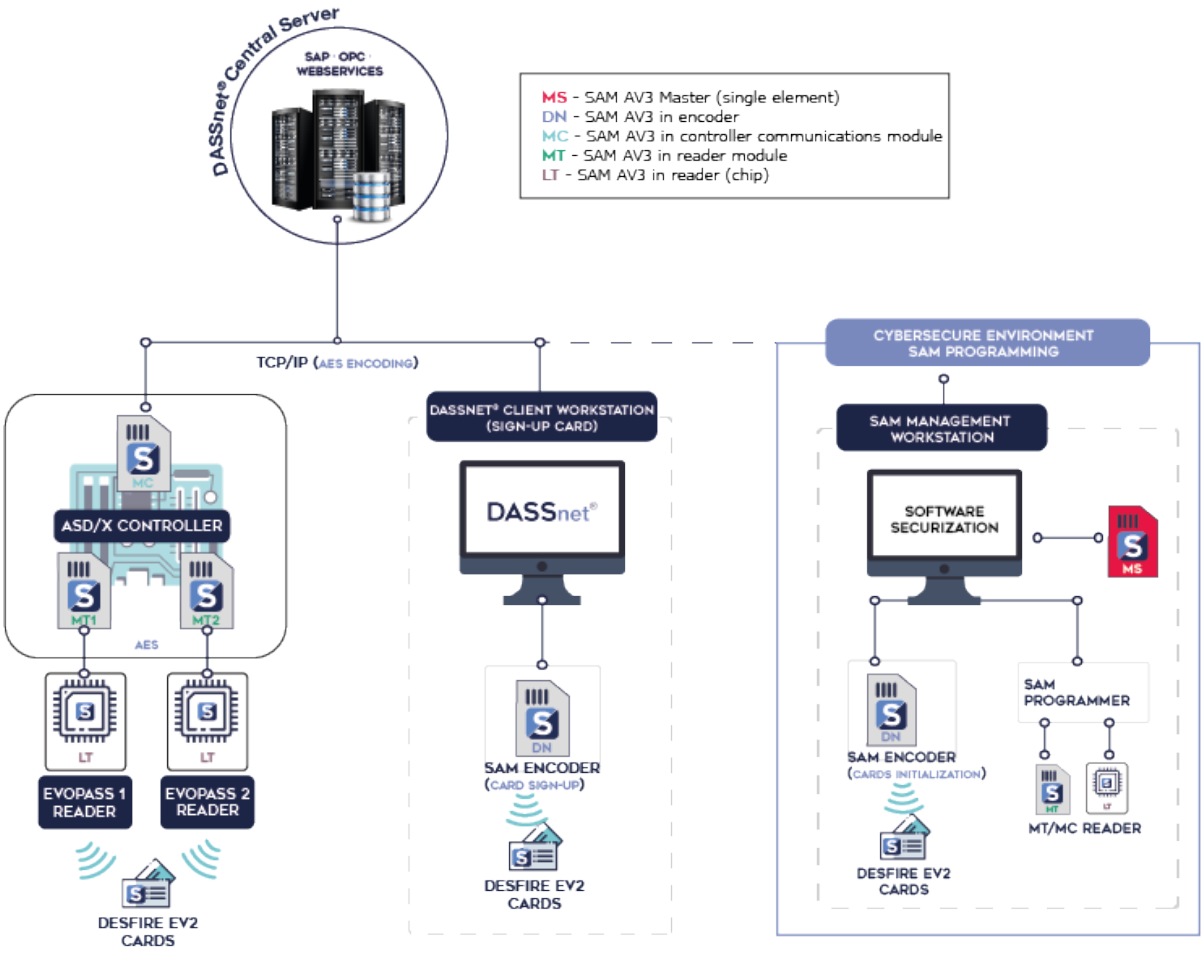

- Capacity control
- Pre-web registration
- Virtual credentials
- DASStime

RESEARCH

- Restricted access to laboratories
- Lockers
- Control of evacuations
- Lock management

SHēld Cibersecurity Solution

DORLET® provides a solution of access control with all the communications protected and coded point to point.

DORLET® provides a **cybersecurity** access solution with all the communications protected and **coded point to point**, **by means of secure elements (SAM - CC EAL6+) in all system components.** It provides the manager with all the necessary means for an absolute installation control.

All encryption keys are managed exclusively by the manager, preventing any attempt of sabotage or security breach.

Encrypted data along the communication chain.

OUR REFERENCES

DORLET® team works to ensure that **Comprehensive Security Systems** protect **highly demanding environments** around the world.

DEFENCE AND SECURITY

- King Abdullah Police 1, KSA
- Beirut Police, Lebanon
- Military Emergencies Unit (UME)
- Regional police forces (Ertzaintza, Mossos d'Esquadra, etc.)

PORTS

- Lome Port, Togo
- Limassol Port, Cyprus
- Algeciras Port Authority
- Vigo Port Authority

VERTICAL BUILDINGS

- Asmakh Towers, Qatar
- Areva Tower, France
- Iberdrola Tower, Bilbao
- Picasso Tower, Madrid

BANKING

- CaixaBank
- Sabadell
- La Banque Postale, France
- Credit Andorra

MUSEUMS

- Madame Toussauds, UAE
- Thyssen Museum, Madrid
- Guggenheim Museum, Bilbao
- El Prado, Madrid

AIRPORTS

- Agadir Airport, Morocco
- Algiers Airport, Algeria
- AENA: Madrid, Barcelona, Mallorca, Malaga, etc.
- Air navigation (ENAIRE)

HOSPITALS

- Curicó Hospital, Chile
- Necker Children Hospital, Paris
- Hospital centres: Osakidetza, SERGAS, SAS…
- Hospital Clinic, Barcelona

PUBLIC INSTITUTIONS

- Famagusta Court, Cyprus
- Federal Supreme Court (UAE)
- Madrid City Hall
- National Court

UNIVERSITIES

- Al Imam University, KSA
- Area Andina University, Colombia
- Polytechnic University of Catalonia
- University of Navarra
